Pushpak Kore

ASPIRING DATA ANALYST | B.TECH CSE STUDENT

EDUCATION

High School Diploma

K.K. Highschool, Sakoli – 441802

Pursuing Bachelor of Technology (B.Tech) in Computer Science and Engineering

MIT ADT University,Loni Kalbhor, Pune 2022 – 2026

Specialization: Artificial Intelligence and Analytics

TECHNICAL SKILLS

C++
Python
Data Analysis
Power BI

NON TECHNICAL SKILLS

Team Collaboration
Problem Solving
Leadership

CERTIFICATIONS

AWS Academy Cloud Foundation
AWS Academy

Database and SQL for Data Science
Coursera

IBM Data Science Professional Certificate
Coursera

PROFILE

Aspiring Cybersecurity Analyst with a background in Python and data analysis. Currently exploring penetration testing, cloud security, and vulnerability assessment. Passionate about applying technical skills to real-world problems through hands-on projects.

EXPERIENCE AND PROJECTS OVERVIEW

Customer Segmentation Application   **2023–2024**

A customer segmentation application uses data analytics and machine learning to categorize customers into distinct groups based on shared characteristics, such as demographics, behavior, purchase history, or preferences. By identifying high-value segments and trends, companies can enhance customer engagement, improve retention, and boost profitability

SCP Master   **2024 – 2025**

SCPMaster is an advanced BCI application designed to | BCI applicati monitor and analyze SCPs, slow voltage shifts in the brain that occur over extended periods. The application provides neurofeedback training to help users control these potentials, which can have therapeutic effects for conditions such as epilepsy and ADHD. Additionally, SCPMaster offers neural exercises that promote relaxation and concentration through biofeedback.
